

**Science board
releases report on
Delta stressors**

The Delta Independent Science Board (ISB) has released its final report evaluating multiple stressors in the Delta. The report is being presented to the Delta Stewardship Council (DSC) at its meeting this week. The Delta ISB [stressors memo](#) and two attachments have been posted on the [DSC](#) website.

**Delta Conservancy
seeks comments for
interim strategic plan**

The Delta Conservancy is seeking public comment on its interim strategic plan. Comments should be based on the [public comment version](#) of the plan and should be sent to [Nancy Ullrey](#). The deadline for submission is Tuesday, Feb. 1. The strategic plan subcommittee will meet on Wednesday, Feb. 2, to discuss the public comments. The [meeting notice](#) is available on the Delta Conservancy website.

**Irrigation conference
to focus on urban and
ag water issues**

The California Irrigation Institute (CII) will hold its annual conference and meeting on Monday, Jan. 31, and Tuesday, Feb. 1, in Sacramento. Sessions will focus on urban and agricultural water issues surrounding irrigation and water management. There will also be vendors exhibiting their water measurement products and services. Conference details and registration information are available on the [CII](#) website.

**Southern California
water project
open for comment**

The U.S. Bureau of Reclamation and the Western Municipal Water District are seeking comments on a supplemental draft environmental impact report/draft environmental impact statement for the construction of a proposed aquifer storage and recovery project. It is designed to help supply water to families in Riverside and San Bernardino counties. Project details and instructions on submitting comments are available [here](#).

**Fisheries
conference to be
held in Folsom**

The theme for this year's conference of the California-Nevada Chapter of the [American Fisheries Society](#) is "Fisheries Research and Management for a Changing World-The Importance of Innovation, Adaptation, and Partnerships." It will be held March 30 to April 2 in Folsom. The conference will include a symposium by the Interagency Ecological Program. [Online registration](#) is available.

**Bay-Delta office
move completed,
website updated**

The Bay-Delta Office of the U.S. Fish and Wildlife Service has completed its move to the eighth floor of the old federal building at 650 Capitol Mall in downtown Sacramento. The new main reception telephone number is (916) 930-5603. Other phone numbers for the office are unchanged. Updates on other recent developments can be found on the Bay-Delta Office's [website](#).
